**It has been our tradition for the past several years to offer HUPS' videographers a forum to show their video clips and short films at our January meeting. Several HUPS members have submitted clips so I can put this show together.**

**Dennis Deavenport, Carl Bergman, Craig & Betsy Beasley, Justin Wallace, Bert Campanelli and David Lenderman.**

**The program brings variety and excellence from our members. You don't want to miss this show.**

# President's Message

by Craig Beasley

**\*\*\*\*\* Very Important!!! Please Read \*\*\*\*\***

Due to a change in reservation procedures at Bayland Community Center, we can no longer set our meetings calendar for the year. The new rules allow us to reserve a meeting room no more than 45 days before the meeting. Of course, we have planned dates for our meetings for the year and that does not change. We plan for the first Monday of each month with exceptions for things like holidays, elections and other possible conflicts. This year's proposed dates are:

Jan. 6, Feb. 3, Mar. 3, Apr. 7, May 5, Jun.2, Jul. 7, Aug. 4, Sept. 8, Oct. 6, Nov. 10, Dec. 8.

September is moved because of Labor Day, November because of elections and December to better balance the time between the November, December and January (2026) meetings.

These dates are only "proposed" because they can't be confirmed until we successfully reserve a meeting room 45 days in advance of the meeting. I am happy to say that we were successful for January and February so the HUPS monthly meetings for those months are confirmed: Jan. 6 and Feb. 3.

No doubt, none of us like this new restriction and I expect that the groups that use our county facilities are also not happy, except maybe for those who get shut out by too many regulars like HUPS, but I didn't hear that as a reason. We hope for a change that allows better planning but in the meantime, we will do our best to reserve as soon as possible and confirm the date to the members. We will discuss this at the January meeting to get a sense of whether we should send a special email blast or just publish it in the newsletter.

\*\*\*\*\*

We are off to a great start in the new year with a club-favorite program at the January meeting: "Anything Goes Video Night". If you haven't already sent me some video, there's still time. Send it by We Transfer, Drop box, Google drive, etc., to [cb\\_as@hotmail.com](mailto:cb_as@hotmail.com).

Also, please mark your calendar for January 19 for the Mix-Match event at Match Theater featuring a performance from HUPS entitled "Behind the Scenes at the Houston Underwater Film Festival: an evening with filmmakers". This is a (now) yearly event that focuses on collaborative, multi-disciplinary art with 20 performances from various groups in a variety of forms: performance art, film, dance, drama, etc. Check for the schedule and ticket options here: <https://matchhouston.org/events/2025/mix-match>. Details for both events appear below.

## 2025 Photo Contest Categories

<b>January</b>	Single Color Focus (Blue, Red, Green, Yellow, etc.)	Subject must be a single color or shade of color, such as: green moray eel, green parrotfish, soap fish, sharks, sponge, coral .
<b>February</b>	Fish Portraits	1 or 2 fish (not critters), side on, angled views, or face-to-camera shots are what we're looking for.
<b>March</b>	Groups, Sweetlips	Groupers typically have a stout body and large mouth, and can be quite large. Sweetlips also have large, fleshy lips.
<b>April</b>	Long and thin - fish or critters	Any fish or critter that is characterized by long, thin lines.
<b>May</b>	Pairs (2 of the same)	Two of the same critters or fish, similar in form, matched or associated.
<b>June</b>	Things that Live in Sand or Muck	Fish or critters that live in sand or muck.
<b>July</b>	Echinoderms (starfish, urchins, sea cucumbers, etc.)	Echinoderms usually have five-point radial symmetry, and include starfish, brittle stars, sea urchins, sand dollars, sea cucumbers, and crinoids.
<b>August</b>	Silhouettes	In Silhouettes the outline and shape of the subject are what is important. A good silhouette should have almost no detail observable in the primary subject. .
<b>September</b>	Juveniles of Any Species	A Juvenile can be anything that's not a mature adult, preferably fish or critters that are obviously still maturing. Such as: juvenile angelfish that have distinct markings or juvenile spotted drums that need to grow into their fins
<b>October</b>	Corals-Macro (hard or soft)	Coral a tiny soft-bodied animal that typically lives within a stony skeleton grouped in large colonies. The goal is individual polyps, not a reef composition.
<b>November</b>	Reef scenes with diver(s)	Any kind of reef scene somewhere in the shot, and also must include at least one diver.
<b>December</b>	Best of HUPS	NOVICE, INTERMEDIATE, ADVANCED, and CREATIVE contests: First place winners from each month's Novice, Intermediate and Advanced categories will be entered automatically for judging. The Creative category lets you enter anything you want as long as you do the photography and any special editing.

## LOOKING FOR PRESENTERS or IDEAS

Like every year, we are trying to fill our agenda with high quality presentations. But, this year, I am very interested in having some of our own members step up to do a show for the first time.

- Please email me with your willingness to get involved with a presentation. I will get back to you as soon as I can to discuss your involvement.
- Send me any ideas you have for subjects or presenters that you'd like to have do a show for HUPS. What would you like to see?

# Texas Gulf Coast Council of Diving Clubs (TGCC or Diving Council) News

Every diver, every elected or appointed club officer, should plan on attending the TGCC Annual Club Awards Luncheon. It's a major dive community event. The following are some detail about the "Awards Luncheon":

This event is the one opportunity for all members of the dive community to get together – hear what was accomplished last year and learn about key issues and projects for the current year. It is the place where the Diving Council, our charity - American Charitable Watersport Activities Foundation (ACWA) and the Houston Underwater Film Festival (HUFF) updates everyone. It's the one time of the year when:

Each of our clubs can "break bread" together and celebrate.

Leaders and the critical workers of our community are recognized.

Additions to the community's memorial program are announced.

Time is taken to recognize many of our community's leaders.

We pause a moment to remember those dive club workers who are no longer with us.

Each of us can learn more about the other clubs and members of our community.

**The event is Saturday, Jan. 25, 2025.**

***At Bayland Community Center, 6400 Bissonnet, near Hillcroft.***

**Social -11:00 AM Lunch - 11:45 AM. Awards and Presentations – 12:15 PM.**

**Tickets are \$30. Tickets are available from Frank Burek, Ja Van Pruett and Mark Leiserowitz. Representatives from each of the dive clubs have tickets for sale to their club members.**

Each club, and the TGCC will present their awards. TGCC known awards at this time are:

Its 2024 **Member-of-the-Year** award to Rodney Dwire.

Its 2024 **Neptune Award** to Betsy Beasley.

Each of the TGCC member clubs will present their 2024 awards at this event.

The Representatives from TGCC's member clubs have chosen the TGCC Officers for 2025 & 2026. They are:

President – Frank Burek  
 1<sup>st</sup> Vice President (Recognition Programs) – Pee Wee Dwire  
 2<sup>nd</sup> Vice President (Legislation, Flower Garden Banks NMS monitoring) – Andy Lewis  
 Treasurer – Mark Leiserowitz  
 Secretary – Ja Van Pruett  
 Webmaster – Tom Burns

Results of TGCC's Neptune Award program 2024:

1<sup>st</sup> Place – Betsy Beasley (11)

2<sup>nd</sup> Place - Craig Beasley (10)

3<sup>rd</sup> Place – Ja Van Pruett (8)

3<sup>rd</sup> Place – Brion Saathoff (8)

4<sup>th</sup> Place – Rodney Dwire (7)

4<sup>th</sup> Place – Christie Emerson (7)

4<sup>th</sup> Place - David Lenderman (7)

## What do you need?

### General profile

Certified divers with interest on photography, science and conservation.

### Abilities

Photographing underwater environments

Basic identification of marine organisms

Responsible handling of diving equipment

Work team

### Requirements

- At least **18 years old**.
- A valid **Open Water** certification or higher with at least **20 documented dives**.
- Diving insurance coverage.
- Participate in a **mandatory orientation session** about the iNaturalist platform, reef species, and safety protocols.

### Essential equipment

#### Personal diving equipment

- Mask, snorkel, and fins.
- Diving regulator and buoyancy control device (BCD).
- Wetsuit suitable for tropical reef conditions.
- Depth gauge or dive computer.

#### Underwater camera

- Waterproof photographic camera or housing compatible with your camera.
- Optional: Underwater lights to improve visibility in deep areas.

#### Security equipment

- Surface Marking Buoy (SMB) and finger spool.

## Why travelling with us?

This event offers a unique opportunity to explore one of **Mexico's most biodiverse marine ecosystems**. As part of this expedition, participants will have access to a remote location at a **much more affordable cost** than any other way of reaching the park.

### Price per person

MXN\$25,000-27,500

- Includes:
- Transportation: live on board Caribbean Kraken.
  - Food.
  - 3 days of diving (up to 11 dives), including 2 night dives.
  - Nitrox available at an additional cost.

Does not include tips, Mérida-Progreso transportation, or arrival in Mexico. Does not include any expenses not mentioned.

## Fauna experts

On this expedition, we will be accompanied by **experts in marine and terrestrial fauna**, allowing you to learn more about the great biodiversity found in Alacranes Reef.

**Nuno Simões**

[nunosimoes](#) / Crustaceans

**Deneb Ortigosa**

Are you passionate about underwater photography? Then this expedition is for you! Join us on April 25-28<sup>th</sup>, 2025, and venture to National Park Alacranes Reef to capture biodiversity in an exciting citizen science project.

 Location: 120 km north of Progreso, Yucatan, Mexico.

 This reef forms the largest coral structure in the Gulf of Mexico.

 Platform reef of approximately 300 km<sup>2</sup>.

 More than 1,100 species inhabit this reef, 18 are at risk and 21 are non-native.

 Biosphere Reserve by UNESCO and RAMSAR site by The Convention on Wetlands.

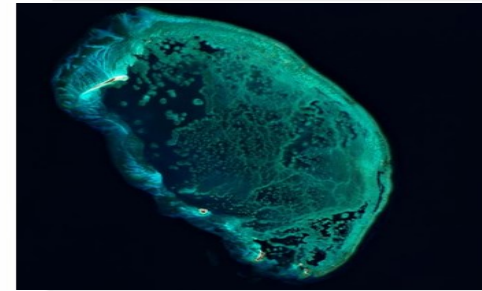

The work group Marine Biodiversity of Yucatan (BMDY), along with Kalanbio A.C., A POCO NO, Arachno\_cosas and the National Laboratory of Coastal Resilience (LANRESC), are looking for passionate naturalists and iNaturalist users to participate in the City Nature Challenge 2025, an international citizen science event.

### How to participate?

### What will the data be used for?

- Now you are a nature scientist.
- You will help document general biodiversity, including the detection of invasive species, rare species, endemic species, commercially important species, and coral diseases.
- You will update the distribution map of species.
- You will contribute to the collection of essential data for marine conservation.
- Your work will directly support the [coastal observatory for resilience from LANRESC](#).

## Activities

### 2-3 immersions per day

To photograph species that inhabit coral reefs.

### Night dive

To photograph species of nocturnal habits.

### Land campaigns

Tours to photograph island flora and fauna.

### Live on board Kraken

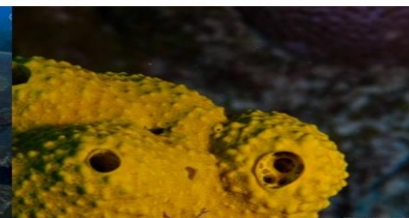

Visit to the different islands of PNA.

### Several visits

Isla Pájaros, Isla Blanquilla, potential visit to Isla Desterrada (depending on weather conditions).

### Snorkel

In shallow areas.

# Davinci Resolve Training

submitted by Betsy Beasley

Davinci for Divers is THE COMPLETE post-production training series for the underwater videographer. It utilizes the free version of Davinci Resolve. Choose your Modules, download the associated footage and follow along with the lessons at your own pace.

Davinci Resolve is the world's only solution that combines professional editing, color correction, visual effects, and audio post-production all in one software tool!

Craig and I reviewed the modules for the author, Pete Lightowler, while he was developing this course, which is specifically targeted at underwater videography. It is wonderful, easy to follow and the answer for those struggling to learn to use Davinci Resolve.

## American Charitable Watersport Activities Foundation

### 2024 Supporter Registration

The “American Charitable Watersport Activities Foundation” (ACWA) was established by SCUBA divers on March 31, 2023. ACWA is recognized by the IRS as a 501(c)(3) public non-profit charity. Staffed by non-paid volunteers, ACWA’s administrative and donation support is provided annually by members of our community.

Supporter Registration for the “American Charitable Watersport Activities Foundation” (ACWA) is open to Dive Clubs and Individuals who reside in the United States of America. 2024 registration is \$20.

“Supporters” on record for 2023 are listed on a “Supporter Master List” and need not complete this form. They continue their charity efforts with their 2024 payment of \$20 to ACWA’s treasurer - Mark Leiserowitz (contact information listed below).

New “Supporters” need to complete this form to provide ACWA with contact and IRS reporting information. To join as an individual (must be a certified scuba diver, or a member of a dive club) - fill out the application below. Please print legibly as e-mail addresses will be utilized to keep supporters abreast with the charity’s status and your name as identified below, used in any future donation reporting required by you or the IRS.
